Dynamic software developer with extensive experience in programming languages and frameworks including Flutter, React, and Node.js. Proven track record of driving innovative projects that enhance user experience and optimize performance. Detail-oriented and committed to delivering high-quality results, I thrive in collaborative environments and excel at solving complex challenges. Strong understanding of software development principles and a quick learner, I adapt seamlessly to new technologies, consistently providing substantial value to development teams.

EDUCATION

B.Tech In Information Technology
Guru Nanak Institute of Technology

Nov 2020 - May 2024
GPA: CGPA - 8.83

WORK EXPERIENCE

Full Stack Developer
Mindstar Technology Solutions Pvt. Ltd.

Jun 2023 - Dec 2024
Kolkata, India

Enhanced coding and software development skills through various projects. Developed and maintained websites and mobile applications, collaborating with the team to deliver high-quality products. Contributed to adopting modern development tools, reducing the time required for new feature implementation by 20%. Integrated third-party APIs, enabling the application to offer new services and expanding the customer base by 15%.

Software Developer Intern
Abchi Technologies Private Limited

Jan 2023 - Nov 2024
Kolkata, India

Advanced coding and software development skills by working on diverse projects. Developed and maintained websites and mobile applications, collaborating with the team to ensure high-quality product delivery. Migrated the front-end codebase to TypeScript, reducing the number of runtime errors by 70% and improving overall code quality and maintainability. Refactored legacy code, resulting in a 30% reduction in code complexity and increased feature delivery speed by 25%.

SKILLS

Programming Languages: Dart, Typescript, Javascript, Python, Java

Tools, Services and Concepts: Android Studio, Vercel, Firebase, AWS

Frameworks: React Js, React Native, Next Js, Flutter, Node Js, Tailwind CSS, Pandas, Django, Flask

PROJECTS

HMS (Hospital Management System)

Led the development team for a hospital management system, harnessing the T3 stack (TypeScript, Tailwind CSS, and tRPC) to enhance efficiency and patient care. Engineered a comprehensive system for managing hospital operations, utilizing the latest technologies to drive advancements in healthcare management.

Lyk Social Media App

Designed and implemented Lyk, a dynamic social media app, leveraging the power of Flutter to ensure a seamless user experience. Developed an intuitive interface, ensuring cross-platform compatibility for a wide user reach.

Crimson Paints

Led the development of Crimson Paints, a sophisticated inventory management system built on Next.js. Employed React's versatility to design an intuitive and responsive user interface, ensuring a seamless experience for inventory tracking and management.

Prescription Generator Website

Spearheaded the development of a Prescription Generator system, employing cutting-edge technologies to deliver a robust, scalable, and user-friendly application. Utilized TypeScript, Tailwind CSS, tRPC, and Next.js to achieve a high-performance solution.

AI CHATBOT

Engineered an AI Chatbot, a cutting-edge customer support assistant using Python and Tensorflow capable to answers numerous queries using text or voice with enhanced voice recognition technology

CSIWB

Developed the CSIWB website with the help of PHP, a comprehensive platform for the Cardiological Society of India's West Bengal chapter. Established the website as a central hub for regional cardiologists, providing resources, event information, membership management, and more.

CERTIFICATIONS

Mobile App Development with Kotlin (Credential ID: f8kewqcgnhx)  by Internshala
Android Development Using Flutter  by Udemy

Mar 2023
Dec 2022

AWARDS

Winner in an inter-college coding competition
